Dear Lorraine,

It is with great pleasure that I share with you my remarkable recovery as a result of your lotion.

In 1995, my husband and I were vacationing in Jamaica. During our stay, I was bitten and infected on the back by a tropical insect.

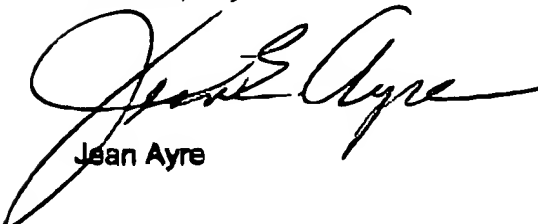

For five years, the cycle of intense itchiness, redness and swelling re-occurred yearly – symptoms of a parasitic infection.

When my husband applied the lotion for the first time, I had immediate relief from the itching – and within two to three days, the redness and swelling completely subsided and has never returned. No scarring remained, despite the fact that I have highly pigmented skin.

Having experienced such success with the insect bite, I decided to apply the lotion for sinus congestion when I came down with the flu. I was so amazed when the sinus congestion and related pain totally disappeared within two applications of the lotion.

Thank you for allowing me to test your lotion and helping me through its use.

Sincerely,

Jean Ayre

Dear Lorraine,

Thank you for the opportunity to test your lotion. I have held various positions in the health and wellness industry for over 20 years, and never, have I tried a skin care product with so many cosmetic and therapeutic benefits as your lotion.

What follows is a list of incidents and the remarkable results experienced by my family and me.

- I first used the lotion for recurring headaches due to an old whiplash injury from a car accident of 13 years ago. Applying the lotion to the back of the neck and the base of the skull provided immediate relief of the headache. Lotion applications twice a day for a week relieved the chronic pain associated with the scar tissue.
- Due to repeated wrist motions in operating a cash register, I developed carpal tunnel syndrome. To my complete amazement, one application of the lotion on the top and underside of the wrist took away the pain, the numb feeling associated with reduced nerve function and improved the wrist/hand flexibility.
- My granddaughter, who is a gymnast, suffered from headaches. Applying the lotion to the temples relieved the pain immediately.
- I suffered from varicose veins for many years. The lotion provided immediate relief of the pain and "heavy feeling" in the legs. Repeated applications twice a day for a week got rid of the swelling, reduced the blue discoloration immensely and increased vein flexibility.
- Facially, I have enjoyed applying the lotion twice daily. It has provided deep moisturization, improved skin texture, facial radiance – and even toning to the lips prior to applying lip colour.
- I have also applied the lotion to a skin tag in the neck area. Two applications are all it took to remove this skin growth.

Winnipeg, MB R2J 4A3

Dear Lorraine,

I am writing to tell you of the positive results I experienced when using your lotion.

I suffered from rosacea on the face to the point that the itching kept me awake at night. After applying the lotion for the first time, the intense itchiness disappeared immediately. With applications in the morning and before bedtime, the pain, swelling, redness and skin irritations were gone within a week.

Thank you so much for what your wonderful lotion has done for my skin – and my sleep.

Sincerely,

*V. W. Catalano*

Vincent Catalano  
Deacon

- On two occasions, I developed a skin rash on my eyelids due to an allergic reaction to smoke from a citronella scented candle at a park concert – and secondly, from a skin cream. In both instances, the eyelids were itchy, red and swollen. Results were obtained with two applications a couple of hours apart.
- My son, while working on a summer decking project, accidentally hit his thumbnail with the hammer. He applied the lotion, and to his complete amazement, the throbbing pain and swelling were relieved with a couple of applications – with the intense bruising dissipating within a week. What surprised him even more – the nail never fell off.
- Lastly, at times I have suffered from insomnia. Applying the lotion to the soles of the feet before bedtime produced a deeper and more restful sleep.

Thank you so much Lorraine for all the lotion has done for my family and me.

Sincerely,

Harmel De Lariviere

Dear Lorraine:

I am writing to say "thank you" for introducing me to Fabulous Forever lotion.

As I mentioned to you, I was in pain from ACL (anterior cruciate ligament) surgery and underwent various therapies to assist in pain management and the strengthening of the muscles through physiotherapy, massage therapy, acupuncture, acupressure, chiropractic treatments and exercise. Despite all these therapies, I still had knee pain. I now apply Fabulous Forever to my knee every morning on the front, sides and back. I cannot believe the relief I experience. The lotion is the missing link in my recovery and has aided in the easing of my pain.

Also, I have scar tissue in my right shoulder from a car accident in 1994 and have found the lotion to also help ease the pain. Again, I had tried various therapies and despite my efforts, until I used the lotion, I experienced a great deal of pain. With the addition of Fabulous Forever to my regime, the pain has subsided. In addition, I have experienced pain relief by using the lotion on my tennis elbow.

The Fabulous Forever lotion, along with my therapies, has assisted me to better health.  
Thank you.

Sincerely,

February 23, 1999

Dear Lorraine:

Just a quick note to thank you for introducing me to your lotion! Do I have positive feedback for you!! I've used your magic potion on everyone and for everything I've come across:

- For Psoriasis on my hands and on my mother's scalp, I've found that the lotion helps relieve itchiness during outbreaks and seems to help regenerate the skin within 2 -4 days with three daily applications.
- Used a Moisturizer on my face, I found the lotion penetrated through the dry patches on my face without leaving a greasy film. Dry skin was gone after 1 week of daily use.
- As a "Stimulating Rub", I've used it on my husband's sore back muscles as well as my own tired feet and received instant relief. (Try it on the soles of your feet before bed - you're going to sleep like a baby!)

I could keep going on, but I want to give you time to read all the other comments that are sure to come!!

Sincerely,

Leslie Fiorino

ACADEMIC &  
BUSINESS  
COMMUNICATION INC.

Dear Lorraine,

My sincere congratulations on your recent Innovation Award. You are an extremely deserving recipient as I am aware of the many long hours and years it has taken you as a scientist and inventor to formulate your REMARKABLE LOTION.

A few years ago, I wrote you a letter talking about the four exciting uses of your lotion to cure or ease the pain of skin problems. Today, I have two new uses for the lotion that I want to describe to you. I am sure many others have also discovered these uses as well.

1. This past winter and for the past year, I have trained harder than ever before to prepare for a World Speed Skating Championship. I suffer from advanced osteoarthritis, mostly in my hands and feet. By applying the lotion to my sore joints, I was able to continue hard training and lots of racing which resulted in my winning the World Championship for my age class in the Masters Long Track Speed Skating.
2. I am a Communication Consultant and speak to large and small groups many days a week. My voice is very important. When I got a major cold in mid March and had an important speaking assignment the next day, I rubbed your lotion on my throat and sinus area. To my amazement, a lot of the pain and congestion disappeared and didn't return.

You may not be aware of how your lotion can actually help people achieve their goals and gain success whether it is in sports or business. The remarkable lotion is a miracle. Thanks again for allowing me to use it and be pain free at critical times.

Sincerely,

Donna Van Horn  
Communication Consultant

August 8, 2001

Dear Lorraine:

It is wonderful to look at my nails and have them healthy again. There was doubt that that would ever happen, both professionally and personally.

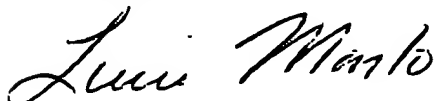

I am a woman with a very busy schedule and acrylic nails seemed like a good idea – one less thing to do. I experienced a rare but violent reaction to the nails. My body tried to reject them by actually separating away from the nails.

This left my fingers sore and inflamed. The acrylic nails had to be removed right away. The method of removal included soaking my nails in acetone, which needless to say, did not help sore, swollen fingers. It was traumatic to look at my hands and see that almost every nail was partially dissolved.

I want to thank you for your help, your kindness, your wisdom and concern. I started using your lotion and within days the soreness and swelling subsided. After a month of use, with a combination of silicea, the nails started to regain their colour and slowly reattach to the nail bed. I am absolutely thrilled to look at my hands and have them healthy.

Thank you so much and congratulations on creating a wonderful product that has and will continue to help many people.

Sincerely,

Lucie Marlo

P.S. More recently, I have been applying the lotion to a burn scar which has been fading much faster than anything I've seen before.

Dear Lorraine:

I take great pleasure in returning to you The Manning Innovation Awards Nomination Form, upon which I have completed the section for "Nominator 2."

It is at a time like this that I pause to reflect our past relationship. I first met you because of the legal work I had performed for your husband Michel on other matters. I distinctly remember when he asked me to draw up the necessary papers to incorporate Positive Living Inc. while I was practicing law in Winnipeg. During our sometimes lengthy meetings, Michel would pull out various health food snacks that you had prepared for him and in response to my questions about these, Michel indicated that these were all your "secret recipes." I prevailed upon Michel to deliver to me a "Care" package from you and I think that was my first experience with health food. I understand that you have now obtained a Canadian Industrial Design Patent for a nutraceutical bakery product, and that you are waiting for the U.S. response.

Shortly thereafter, we met face-to-face, and from that day on I have been so favorably impressed with your dedication to improving other peoples' lives, not for your own gain, but for the benefit of mankind. Not once in all the years that we have known each other, all our meetings, telephone calls, faxes and letters, have you wavered in the slightest from your mission to better the health and well-being of others. It is hard to conceive of a more deserving winner of the Manning Award.

Even though I moved away from Winnipeg six years ago, we have been in constant contact with each other. Sometimes you have sought my counsel, other times, you have kept me completely up to date as to the progress you have been making with the topical lotion you

Ms. Lorraine Mignault

January 4, 2001

Page 2

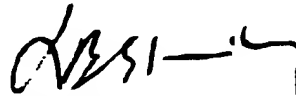

invented and patented. For me, it has been a fascinating ride to observe your innovative and proactive approach to health matters.

On a personal note, I can attest to the fact that the lotion you sent me provided soothing relief and repair to a particularly nasty Florida sunburn I suffered before I learned to stay out of the sun. It has also helped me with a sore and tender shoulder muscle and took away the pain and itch of some sort of insect bite my daughter had suffered.

Although we are separated by the miles, I am with you in mind and spirit. I wish you all the best in your future endeavors, and much success in the Manning competition.

Yours truly,

Dear Lorraine Mignault,

**Here are the results that I have found with using your lotion on patients and myself:**

1. I applied the lotion to a patient's elbows that has psoriasis and the itching stopped immediately. Approximately two applications (once a week) and the dry skin disappeared. Still to this day flare up has been very minimal without any more applications of the lotion.
2. I had also tried using the lotion on a patient who has a back problem (eleventh and twelfth ribs on right side posteriorly rotated) along with the massage therapy treatment and results were inconclusive. I had used the lotion for approximately six treatments, once per week. The pain still comes and goes. I believe that more studies/experiments need to be done on muscular and joint pain and the effects of the lotion on that type of pain where there aren't any uncontrolled variables.
3. I also applied the lotion to my face for acne breakouts and in one day the pimples were gone. A colleague also asked to try it on her face for a pimple and she was amazed that it had disappeared in one day.

I am a licensed and practicing massage therapist here in Winnipeg I graduated in 1998 from a 2200-hour curriculum massage therapy course.

I believe that you have developed a wonderful product that I am sure will help many people in so many ways and I have only touched upon seeing it's potential. Thank you for letting me test your lotion.

Sincerely,

Katarina Dumbovic Balharry

**Attn: Lorraine Mignault**

Dear Lorraine:

During the course of my business (I am a General Insurance agent), I have the opportunity of viewing many new products and ideas that have been developed by Manitobans.

Fortunately for me I was introduced to Positive Living Inc. and learned about a new lotion that had been developed. Being the curious type, I enquired whether I could test your lotion.

For many years I have had a large area of dry skin (psoriasis) on my index finger. I have tried many products, none of which provided any tangible improvement.

Following your instructions I applied a small amount of your lotion on a daily basis to the affected area. Within seven to eight days I noticed a remarkable improvement. As of today I am happy to report I do not have an ugly patch on my finger.

Obviously you have developed a wonderful product with a possibility of many exciting opportunities.

Thank you for trusting me with your lotion.

Yours truly

**Re: Fabulous Forever™ lotion**

Dear Lorraine:

After two years of education and training, I am a registered Massage Therapist. In May 2000, I opened my own Massage Studio.

I first heard about your Fabulous Forever™ lotion from a friend who told me about its amazing properties. It must have been convincing because I soon contacted you for a bottle. I used the lotion on my sore back with good results upon first application.

My company began to grow and I was working twice as hard. My right forearm began to develop tennis elbow. This is a very painful condition, and if not treated, may become disabling. The treatment for this condition includes rest.

Well, my business was booming for the first time since I began and I couldn't turn away new clients. I remembered the lotion! I applied the lotion at night that day. The next morning I still had pain, however not as much. I applied the lotion after my shower and again before bed. It took 3 applications of Fabulous Forever™ lotion to treat my tennis elbow. I still need to apply the lotion when I feel a flare up, however, I never need a rest and I continue to massage.

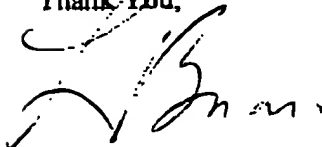

I have also used the lotion on a patient – another practicing massage therapist suffering from tennis elbow. The first application relieved the pain so much so that she too has acquired the lotion.

After my sister's accidental fall, I had massaged her shoulder – which helped for one day. I then decided to massage her shoulder again, only this time with the lotion. The next day, she was relieved from the severe pain, and gained some mobility. Subsequent applications have allowed her to use her arm once again.

I also use the lotion for my hands. Every so often after a hard week, my hands are painful with swelling and inflammation. I would run my hands under cold water to cool them down. Now, I just put on a few drops of lotion at bedtime and in the morning, my hands are pain free and no swelling.

Fabulous Forever™ lotion has saved my hands and has helped me continue massaging.

Thank You,

Louise Buors  
Registered Massage Therapist

Dear Lorraine,

Just a short note to update you on the results I have received after using your lotion. With just a few applications, the eczema that I had disappeared. It has been quite a few months and it has not resurfaced.

It has taken away the itchiness, redness and dry patches caused by the eczema. I would like to thank you for the opportunity to try your lotion.

Thanks again,

A handwritten signature in cursive script, reading "Rose Bertrand".

Winnipeg, MB R2J 4A3

Dear Lorraine:

Thank you for allowing me to use your wonderful lotion. I have found the following positive results after using it for a short period of time:

- 1) An itchy, burning wasp bite was cured immediately upon applying the lotion at day 8 after the bite;
- 2) A sore Achilles heel pull was showing no pain after use of the lotion for three days. This injury had been very painful for two weeks;
- 3) I began applying the lotion to sun damaged skin on my upper chest and noticed, within two weeks, a marked improvement in the texture of the skin; and
- 4) I noticed poison ivy on my ankle at the point it was starting to blister and spread. I immediately applied the lotion, and after only one application, the poison ivy totally disappeared.

This is a wonderful product and I can see so many exciting uses for it. Thank you again for allowing me to test and use your lotion.

Sincerely,

Donna Van Horne,  
Communication Consultant

Dear Lorraine,

I am writing this letter to put to paper the results I experienced from using your lotion. You have been kind enough to provide me with samples over the years for various ailments and concerns for which I applied the lotion and received positive results. The incidents and results are as follows:

1. In 1997 I suffered an acute herniated disk that caused me excruciating pain and immobility for several weeks. After relieving the acute pain through chiropractic treatment I noticed I had secondary symptoms in the form of numbness in my left thigh as a result of the injury to the disk. I applied the lotion to that area and felt increased sensation to the nerves that has almost returned to normal after the use of the lotion.
2. In April 2001 my mother was admitted to hospital for surgery. During that time she had difficulty sleep due to stress and worry. I applied the lotion and massaged her feet nightly. She slept more soundly as a result which helped comfort her during her stay in hospital.
3. In August 2001, while the weather was unusually hot and dry, I began to apply the lotion to my skin and noticed a marked difference in the softness and moistness of my skin. It also helped heal a small crack at the corner of my mouth over a few days.

I have used this product for a variety of reasons, medicinal, aesthetic, and therapeutic and have had remarkable results. Thank you for helping me through the use of your lotion.

Sincerely,

Patricia Glanville  
Registered Architect and Registered Landscape Architect

Dear Lorraine,

For the past 20 years, I have been in the hair care industry, both as an owner of a hair and aesthetics salon, and as a professional hair stylist.

As a hair stylist, I have had the opportunity to monitor a number of clients over the years that suffered from hair loss. The following results on a male client who lost his hair due to German measles some 20 years ago has been most remarkable – especially since several treatment programs with a trichologist were unsuccessful prior to using your lotion about 2 years ago.

During his visits to the salon, I noticed;

- The lotion is highly effective at cleansing the scalp – no excess sebum remains.
- The lotion encourages meaningful hair growth (not peach fuzz) within 3 to 4 weeks of starting treatment whereas this normally takes a year or more to achieve with other treatments.
- The lotion produces strong hair re-growth – even in the difficult frontal growing area of the scalp.
- The lotion encourages pigmented hair re- growth.
- The lotion does not cause hair fall-out if the treatment is stopped – a common occurrence with other products.
- The lotion demonstrates the potential for continued progressive changes in the hairline going towards the crown.

This is an excellent hair care product that provides therapeutic, aesthetic and psychological benefits to the client.

It is my pleasure, Lorraine, to provide you with my comments pertaining to your lotion.

Sincerely,

Connie Rocha  
Professional Hair Stylist

Winnipeg, MB R2J 4A3

Dear Lorraine:

I would like to thank you for allowing me to use your magical lotion. I have found many opportunities to use your lotion and have always experienced positive results after treatment.

I have an allergy to mosquito bites as have both of my children. Living in a province which is known for mosquitoes we have had a hard time enjoying the outdoors for fear of the results of mosquito bites. When we applied your lotion on any bite we received, we were able to avoid the swelling and itchiness experienced previously.

My daughter also had spots of eczema. After applying the lotion for a week the spots had virtually disappeared, and after one more week of use, disappeared totally.

I began applying the lotion to my large toe due to a fungal infection. My toe was swollen, the nail was discoloured and the pain was unbearable. After approximately 3 - 4 weeks of daily application, my toe healed and has been fine ever since. No swelling, discolouration or pain.

I also suffer from insomnia. After talking with you in a general conversation, you advised me to rub a small amount of the lotion on the bottom of my feet. That very night I went home and could not believe that I slept through the night. Whenever I can't sleep, I apply the lotion as directed and always have a fitful night's rest.

This is a wonderful discovery and should be available to everyone. Thanks again for the opportunity to use your wonderful lotion.

Yours truly,

  
Charlene Larsen  
Legal Assistant

Dear Lorraine:

Thank you for providing me with a sample of your lotion.

As you know I was experiencing some aggravating poison ivy irritation for more than 2 weeks. Immediately upon applying the lotion there was a noticeable, almost complete relief from the itching. Within about one week of using the lotion 2 to 3 times daily the problem was cured.

I will certainly call on you if I experience the same problem in the future.

Once again thank you for letting me sample your very effective lotion.

Sincerely,

August 8, 2001

Dear Lorraine,

I thank my lucky stars that I have been chosen to use your "magic lotion." It has been a true blessing in my life. Here are just a few examples of how the lotion has helped my family and me.

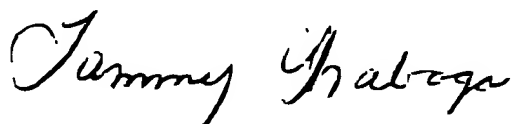

- I have experienced great relief from severe headaches after applying the lotion to the temple area, back of the neck and crown of the head within about 10 to 15 minutes. If a headache is just starting, the results are immediate after one application.
- I applied the lotion to a very painful boil that formed inside my right nostril from a chemical inhalation exposure. After three applications for two days, it was gone by the third day.
- After overexposure to sun and wind this summer, I suffered a tender red burn to my face, neck, shoulders and upper arms. After applying the lotion to these areas twice a day for three days, the skin was healed – i.e. looked and felt normal. Immediate relief was felt with each application of lotion – a cooling, revitalizing and soothing sensation.
- This summer my dog's itchy, dry skin on the side of his body was relieved after one application for two nights before bed.
- I have also used the lotion on my neck and back for chronic pain from the scar tissue of an old whiplash injury. Not only do I experience relief from pain but the muscles and surrounding tissues are conditioned in a way that helps prevent further injury. Elasticity seems to be improved with two to three applications daily.
- I twisted my knee and injured the muscles and ligaments around it. After applying the lotion two to three times a day for approximately a week, I had amazing relief. Both the pain and swelling of the knee subsided.

Also where a shoe rubbed and created a red sore area as well as a blister on top of the foot, the lotion healed it in two applications in one day and night with no scarring.

- I sprained an ankle badly, tearing the ligament around the outer anklebone. The whole foot and ankle were sore and swollen. With application of the lotion three times daily, the injury healed well. The ankle and foot are strong again and the ligament has been conditioned to prevent further injury.
- Lastly, I have been using the lotion on my face on a daily basis, two times a day. The lines and wrinkles around the eyes, nose and forehead are diminished immensely! When recently asked by a co-worker if I was about 27 years old, I smiled. Little did they know that I'm 40. The lotion also helps keep the lips conditioned during the seasons. If a crack does occur in the corner of the mouth, two applications in one day is all it takes to heal.

I thank you from the heart for the quality of life I now experience because of your "Magic Lotion". It's a marvellous product!

Yours truly,

Dear Lorraine,

"I'd like to buy the world a Coke" Do you remember this famous jingle from years ago? I would love to change it to "Lorraine's Lotion". Your lotion has replaced so many products in our medicine cabinet that now the ladies of our household have more storage for their cosmetics.

We have found your lotion beneficial for many applications;

- The pain in my elbow, from tendonitis, would keep me up most of the night, after applying the lotion twice a day for a week, the pain has completely gone and has not returned.
- Dry and itchy skin around my ankles was so sensitive that I could barely tolerate socks. I applied the lotion and after three days, all symptoms were gone.
- My daughter's eczema on her elbows has diminished by 50%, and would probably be gone if she was more diligent in her frequency of application.
- We have found relief from various other ailments such as mosquito bites, sore muscles, sunburns and as a healing compound for cuts or abrasions.

My family and I wish to thank you for your wonderful discovery and hope to see this wonderful product available to the public in the very near future.

Yours truly,

A handwritten signature in black ink, appearing to be "J. Roger Chénier". The signature is stylized with a large, looped "J" and a cursive "C".

Dear Lorraine:

I am pleased and honored to share some of our success stories of the wonderful cures and relief my family and I have experienced using your miraculous lotion.

I have scar tissue in both shoulders from 2 serious car accidents dating from 1976 & 1987. I have tried all sorts of therapies with very minimal results. I have noticed that along with attending a chiropractic session for alignment once a month and applying the lotion on a regular daily basis, my shoulders have loosened up resulting in less swelling and stiffness, becoming more mobile.

I suffer from migraines to the point of vomiting, being light sensitive and the need to be in complete darkness with no sound & no movements. If I catch my migraine at starting point and apply the lotion on my neck and at the crown of my head, it will relieve my headache right away. When I apply the lotion once I'm in a full blown migraine, I have noticed that I no longer vomit, and that if I go to bed and relax, it's gone within an hour. What a miracle !

My husband works in a very high stressful industry. He kept waking during the night worrying or thinking about things, therefore never getting a full night's sleep, nor being totally relaxed, nor refreshed. As you suggested, Lorraine, he applied the lotion sparingly on the bottom of his feet and unbelievably he sleep through the whole night. At times, when he wakes up during the nights and can't fall asleep again, we apply the lotion to the bottom of his feet and he is able to relax and fall back asleep soon after.

My 10-year-old son was suffering from growing pains, getting cramping in his legs, waking up crying due to the pain. The pain and stiffness was preventing his participation in active sports on those days. As an active and physical child, he is very pleased and thankful for this excellent healing product.

My father just recently had his 2 knees replaced. Prior to this operation, he was in so much pain due to inflammation and deterioration that he could not walk. He would apply the lotion on all sides of his knees twice a day. The lotion has decreased the swelling and relieved most of the pain. After the operation, he continued using the lotion to increase the healing process and reduce the swelling. I have to tell you, being a senior citizen, he was very leery to try, but to his complete amazement and satisfaction the lotion has helped him tremendously. He has asked me why didn't I give this to him earlier.....

My next healing trial is for my mother-in-law, she has arthritis in her hands, so severe that she has trouble flexing and bending her fingers. For her anniversary, next week, I am giving her your lotion to try out. I will let you know what the results are, as I am totally confident it will help.

Thanks Lorraine, due to your complete determination and dedication to better our lives, this lotion has enabled my family and I to continue living our lives at its' fullest without discomfort and PAIN.  
**LIFE IS GREAT !!!**

Dear Lorraine,

Thank you for introducing me to your wonderful "Magic Lotion". I have been in the cosmetic industry for fifteen years and with all the skincare products which exist and have existed, I have never tried a product as effective as your lotion.

In 1995, I was diagnosed with Crohns disease, which caused me to undergo several surgeries over the course of two years. Since the surgeries, I have developed keloid scars. The "Magic Lotion" has truly helped heal the scar tissue like nothing else I have used before.

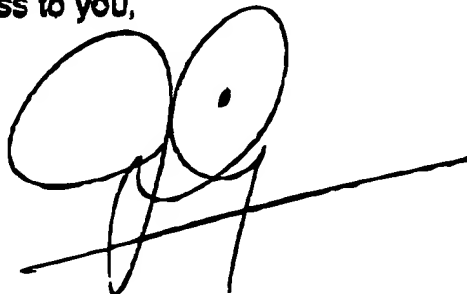

Here are some of the other benefits and features I have discovered while using the lotion;

- \* The lotion absorbs well leaving no residue.
- \* The lotion has a calming and soothing effect (It is great for tired and sore feet).
- \* The lotion heals eczema effectively.
- \* The lotion works as a makeup primer creating a smooth application.
- \* The lotion adds intense hydration and a beautiful radiance to the skin.
- \* The lotion brightens tired and dull looking skin.
- \* The lotion prevents itching of the keloid scars.
- \* The lotion has a pleasant scent and a light texture.
- \* The lotion gives excellent results within minutes of application.

I thank you again Lorraine for all the lotion has done for me .

Much success to you,

Sincerely,
